Awards:

Best Architects 2008 Award, Schwenninger BKK Headquarters

## 05\_Capability and Process

The Office was founded in 1987 by Prof. Tobias Wulf.

The office wulf & partner, freie Architekten BDA was founded 1997 and the office wulf & ass. Architekten GmbH was founded 2000 by Prof. Tobias Wulf, Prof. Kai Bierich, Dipl.-Ing. Arch. Alexander Vohl. Since 2009 we branched abroad WP Architects Co. Ltd. Shanghai, China

Number of employees: 45 architects, 24 technical staff (including administration, construction, students and trainees) and 4 secretaries.

65 PC workstations, in house network. Newest equipment: various servers, printers, scanners, beamers as well as software.

On account of numerous competitions and national and international projects, we are able to realise the position of demanding projects of every dimension and level. During the last years we had our activities increased in many fields:

- sales architecture
- architecture for tourism
- corporate architecture
- activities abroad (China, Dubai)

Business plan: opening of a branch office in Melbourne  
 Periodical client – user meetings.  
 Computer assisted open planning strategy sizing suggestions and impulses of all involved parties.  
 All work stages and architects services are effected by our office wulf & partner.

#### Building Client Confirmation

Dear Sir or Madam,

As requested, we are happy to confirm to wulf & ass. architekten gmbh that it is contracted to carry out the planning and construction monitoring (HOAJ Lph. 1-9) for the Neue Landesmesse [new federal state fair] Stuttgart.

The office won the international architects' competition carried out between March 1999 and February 2000 together with Adler & Olesch Landschaftsarchitekten on the unanimous recommendation of the prize jury.

The construction costs, excluding street construction works, for the external development is approx. 620 million euros. Construction began in September 2004 and the Neue Landesmesse opened in October 2007.

The collaboration with wulf & ass. architekten gmbh was always reliable and constructive.

It was possible to meet the extremely tight deadlines and costs due to the building client's savings policies, which were supported and implemented by wulf & ass. architects.

Yours faithfully,  
 Projektgesellschaft Neue Messe GmbH & Co. KG
